

Doug Hill Memorial Scholarship: Scholarship Testimonial

Dear Friends

Throughout medical school, I remember one of the more profound and life shaping experiences I had was 6 weeks spent in the deep dark jungles of PNG. The time spent on my medical elective in a remote missionary hospital challenged me medically as well as culturally and spiritually. This opportunity was made possible by the financial support granted to me by the Douglas Hill Memorial Foundation.

When I remember back, I see a young Christian medical student quite oblivious to the significance of the scholarship and that crucial moment of my life journey. And if I reflect further back, I am thankful that many years prior, some wise CMDF members had the foresight to set up this scholarship to remember another your medical student, Doug Hill himself whom was taken too early in his life, but whose legacy is not forgotten because of the many whom have received the scholarship.

After David the fugitive finally becomes King of Israel, he conquers Jerusalem and establishes his kingdom. He brings back the Ark, sets up the priesthood and writes a Psalm in 1 Chronicles 16:12 "Remember the wonders he has done, his miracles ...". It is important to remember what God has done in our lives and the miracles He has given us. The DHMF remembers the life of Doug Hill but also looks forward by giving many young students to experience God's wonders and miracles through the scholarship.

I suppose you may be reading this because you are also looking to go on an elective and if so, I would strongly suggest you prayerfully apply for this opportunity. If you have passed this phase in your life then I would strongly suggest you prayerfully consider donating to the DHMF so that many more may have the opportunity to journey further with Jesus. I pray that this opportunity helps you remember the wonders and miracles that He has done!

Blessings
