

SAMBURU & COVID-19

Covid-19 has not yet reached the Samburu, yet it is impacting the people now.

Many have lost employment and income. Markets are closed, so people cannot sell animals and other goods for income. It is difficult to find everyday essentials.

Children have been sent home from boarding schools, creating further strain on household resources.

For many, the prospect of starvation is as real as contracting the virus.

WE PLAN TO HELP

We are preparing to distribute aid to the surrounding villages as soon as possible. We will provide water and food, together with soap and hygiene information to help prevent the spread of illness.

WILL YOU HELP US?

Funds are needed to help the Samburu in this extraordinary time. Please support this effort with your prayers and by donations to:

Grace Samburu Mission Trust
